

THE CHURCH OF JESUS CHRIST OF LATTER-DAY SAINTS

Tour of LDS Church Family History Library

Thursday, February 16th, 2017 at 6:30pm

Visit the newly opened Discovery Center, where visitors can learn more about their ancestors, and can begin recording their own family history for future generations.

The LDS Church Family History Library provides billions of geneological records from all over the World, to help anyone (LDS or non-LDS) to research their ancestors.

This will be a **special guided tour for the Interfaith Month**, by the staff of the LDS Church's Family History Library and Discovery Center. Refreshments will be served.

The tour will include an explanation of why Mormons are so interested in Family History research, with a tour of the vast collections of geneological records.

Free parking is provided in the parking lot behind the Church History Museum (entry on North Temple, East bound).

The LDS Family History Library is located at 35 No. West Temple, directly across West Temple from the LDS Tabernacle.

Any questions, e-mail George Cannon at CannonGR@LDSChurch.org
